PANCHAVEERABHADRA UNIVERSITY

In the present scenario, humans in general can be divided into two categories. One is a group of students who acquire physical knowledge in schools and colleges and does not care much about true “Mother Nature” and are engaged, satisfied with their daily animalistic existence. On the other hand, the humans who are awake, want to know about “Mother Nature” and will acquire hidden secrets of knowledge through the Spiritual Education that can be imparted by the Great Souls for evolving themselves and to support the “Mother Nature” and to know their inner faculties.

Today there exists a group of people who are materialistic (Science) and another who are spiritualistic (Beyond Science). The New Era Humanity should integrate or blend them both. Yogi Sri Aurobindo used to say *“Spirituality is not rejecting life but the art of perfecting life”*.

With this pious intention and to bring Eternal, Ever-New, Sanathan way of life, on 2nd October 2012, Sri SriRamakrishna Samartha Sadgurudev has founded “PANCHAVEERABHADRA UNIVERSITY”(Unregistered) in Mount Shamballa the Global Power Centre, Shamballa Hills, Hyderabad as its Headquarters and study centres will be established all over the world to uplift those desirous of achieving Self-attainment.

Guru Gita says *“As a Bee goes from flower to flower and collects nectar, so should a student go from Guru to Guru and gain knowledge”*.

Panchaveerabhadra University’s strength lies in the unique vision of its patron, visionary Sri SriRamakrishna Samartha Sadgurudev, a Democratic Spiritual leader who established AKHANDA GURUSATTA by bringing Scientific Spiritual Masters(Leaders) onto one platform as sole aim of understanding Universal Divine Plan and to establish Vasudaiva Kutumbakam and to descend HEAVEN ON EARTH through the concepts and paths as directed by the Akhanda Gurusatta. Since 2012, the University has been giving several training sessions to knowledge seekers on Gayatri Maha Vijnana (Science of Gayatri), Science of Yagna, Shamballa Yoga, Samartha Sadguru Sparsha Dhyana, Antaryaaga, Sri Mahalakshmi Sadhana, Pournima Meditations and many others.

From the year 2021, the PANCHAVEERABHADRA UNIVERSITY(Unregistered) has decided to offer various courses ONLINE for evolving individuals by activating and utilising the Five planes namely Physical, Emotional, Mental, Intuition and Atmic planes and aimed at the unfoldment of Antahkarana (Human inner faculties).

For spiritual transformation in all Humans especially Youth, the University was established for sole purpose of giving quality Scientific Spiritual Education System as was given earlier in the famous Nalanda and Takshashila Universities which were world-renowned institutions. The main aim of establishing this University is to lead BHAARATH again to its past glory and occupy the seat of “JAGATGURU”.

We, Panchaveerabhadra University with dedicated, committed, friendly administration, teaching faculty, staff are focussing to transform the Humans to Divine Humans with our meticulously designed courses to excel everyone holistically and we are attempting “a collective approach to a single goal” as group effort as described by Master Djwhal Khul.

MOUNT SHAMBALLA THE GLOBAL POWER CENTRE

GLOBAL HEAD QUARTERS : PARENT INSTITUTION

The Supreme Masters sternly deem that India has got the fortitude to take the entire Humanity to the next level of Evolution. Shamballa is the centre that remotely inspires and energizes the Humanity. The Divine Conglomeration of Supreme Masters who govern the evolutionary processes on the planet Earth from "Shamballa" is allowing the downpour of energies onto the Planet that are capable of sprouting the Divinity amongst Human beings and thus transforming man into a Divine Being. In order to hasten the Descent of Heaven on Earth, mankind with the physical existence needs to grasp the energy streams that are being emanated from the mystic lands of Shamballa in the deep Himalayas.

With this objective, the mystic Shamballa in the deep North India has relocated to down South, in Hyderabad. In this auspicious timeline of advent of the New Era, Scientific Spiritual concepts that are helpful for man to get transformed naturally into a Divine Being, are being disseminated from Shamballa. Mount Shamballa The Global Power Centre has emerged as a driving force to awaken the latent divine energies in mankind and to consolidate them with the energies of Nature.

In the year 1988, during the days of the auspicious Maha Shivarathri, there was a severe hailstorm with a downpour of large blocks of ice on the hillock where the present Mount Shamballa is located. The ice blocks sustained there on the hillock for the next 5-6 days, was a replica of the Himalayas from a distance. Until this metaphorical event took place, there was an illumination that was visible from the hillock, which the villagers nearby considered very auspicious. But, after this event, the illumination ceased to appear over the hillock. 18 years after the occurrence of this phenomenal event, Mount Shamballa The Global Power Centre was established in the year 2006 with the guidance of Sri SriRamakrishna Samartha Sadgurudev. There was a host of scientific research that was carried out on this phenomenon, out of which a complex concept of the "Pole Shift" was being tried to be proven. "Pole Shift", in short, is not a switching over of the poles from north to south and vice versa, but a transfer of the energies pertaining to the north to the south. Shamballa that is believed to exist some 10,000-12,000 ft above in the deep mystic Himalayas has manifested physically as Mount Shamballa The Global Power Centre down south in Hyderabad.

Several Saadhana Sthals and features of Mount Shamballa are given below

ARCHITECT OF NEW ERA, SRI SRIRAMAKRISHNA SAMARTHA SADGURUDEV

Sri Sriramakrishna Samartha Sadgurudev descended onto this World of Humanity on October 14, 1948 in Machilipatnam, Andhra Pradesh, India. Till His completion of PhD in Electrochemistry in BHU, Varanasi, He met many sages and scholars until meeting His Gurudev Pandit Sri Rama Sharma Acharya in 1971.

Sri Sriramakrishna Samartha Sadgurudev fondly called by His followers as Mastergaru and well known as Master RK, is an exponent of Scientific Spirituality. His teachings are a blend of ancient wisdom and modern science. After obtaining initiation from His Gurudev, He came to Guntur in Andhra Pradesh and executed His responsibilities as a lecturer and reader in Chemistry in TJPS College, Guntur till 2002 and took voluntary retirement. With a handful of followers, he introduced the World Regeneration Movement to the people of South India, almost single handed, set up a number of organizational movements in most of the cities and towns in South India. He initiated a unique meditation called **Samartha Sadguru Sparsha Dhyana**. This meditation and contemplation establishes a contact between the aspirants and the Guru, so that they may become active partners and followers of the Masters in the execution of the Divine plan.

Over a period of 31 years Mastergaru has given extensive discourses on many topics in order to understand the knowledge inherited by our ancient Rishis and put them to practical use to transform our lives. A few of them are - the practical aspects of Gayatri, Jagajjanani Sri Mahayogeswari Devi, Surya Vigyan, Swasa Mahavigyan, The Guru Dattatreya Consciousness, Srimad Bhagawata, Sri Ramayana, Sri Mahabharata, Srimad Bhagavadgita, Purusha Sukta, Sri Sukta, Mantrapushpa, Agni Sukta, Aswini Sukta, Suparna Sukta, Homoeopathy, Vastu Vigyan, Astrology, Solar System, Panchagni Vidya, Yagna Vidya, Patanjali Ashtanga Yoga, Omkara Sadhana, Antharyaaga Sadhana, Shatchakra Jagarana. Sri Sriramakrishna Samartha Sadgurudev has embarked on the mammoth task of conveying the scientific spiritual teachings of Gurusatta to humanity by establishing Akhanda Gurusatta to take humanity to new heights of evolution. He is referred to as Democratic Spiritual Leader by many organizations for bringing the galaxy of Gurus onto one platform. His discourses are marked with lucidity and drive the point straight home. His knowledge and mastery over the subject is par excellence. The discourses touch the lives of lakhs of people who get the answers to all the questions they had in mind during the course of the lecture without even having to voice out their thoughts. And what else can one say about the omnipotence, omniscience and omnipresence of the Master.

His goal is to establish ONE WORLD - the world without fragmentation, ONE RELIGION - the religion of human body, ONE LANGUAGE - the language of silence. **One world** is already here with the advent of modern communications, infrastructure, where, it is now possible to contact anyone in any part of the world. The only thing that needs to enter the consciousness of man is the real purpose for which these facilities should be utilized for - to realize the dream of great Masters and establish HEAVEN ON EARTH and to present IMMORTALITY as the birth right of every human being.

Many workshops or Sadhana Shivirs have been conducted under His guidance and supervision. Mastergaru has undertaken hundreds of workshops among the disciples in Special Camps to teach Mantras viz., Gayatri maha mantra, Savitri mantra, Datta mantra, Sai Mantra, Sri Krishna Mantra, Sri Mahalaxmi mantra, Draam mantra, Guru Mantra, Surya Mantra, Siva Panchakshari, Lalitha, Anugraha Mala mantra, Saranagathi Mantra, Om Sai Venkatesha Sriram Om and other beeja mantras Hreem, Sreem, Kleem.

GURU PARAMPARA - INTERPLAY BETWEEN DIFFERENT SPIRITUAL PATHS

Course Outline:

Humanity in general can be divided into 2 categories. One group that is awake, which wants to know its true nature. The other group is one which does not care about its true nature and is engaged and satisfied with its daily animalistic existence. This course is targeted at the first category. It is for those people who know that their mundane daily existence is not the sole idea of creation. They want to know the purpose of creation, their true nature and the powers of nature.

Many start out on this quest at any point they happen to come across. Some start with the direct study of scriptures while others start with commentaries. Some start with a Guru and His/Her teachings, but soon reach a stage where they feel the need for more fundamental answers. Without an understanding of this, they feel like a building without foundation. Soon, the sheer volume of information overwhelms them and they get lost.

Pujya Sri Sriramakrishna Samartha Sadguru dev, who Himself has climbed the steps of spirituality and stands at its peak, explains that the solution to the above problem is to understand what various Gurus taught and how one Guru's teaching paves the path to understand the teachings of another Guru. In this way, one can put forth the first step and then the next.

Sri Sriramakrishna Samartha Sadguru dev created the concept of **Akhanda Gurusatta** and has explained what each Guru teaches and how it fits into the vast canvas. We are not grading the masters, but identifying what we can learn from each one of them. This is like a school where the all teachers are at the same level while the student moves from one class to another, learning different things from different teachers.

Guru Gita says – As a bee goes from flower to flower and collects nectar, so should a student go from Guru to Guru and gain knowledge.

In this course, we bring to you a route map to start your spiritual adventure by benefiting from the knowledge shared by the **Akhanda Gurusatta**
